

Gonville Academy Overview of Coverage:

Discovery covers a wider range of our wider curriculum subjects such as Art, DT, RE, Geography, History and Science.

Individual lessons taught discretely and separate from this are: Music, PE, PSHE, Computing, MFL & P4C which links directly to prior concepts, SMSC and cultural capital. More information on each subject can be found on our school website.

We take every opportunity to make links across the curriculum and have given examples of how we do this through our discovery curriculum. Where you see e.g., this is an example and not exhaustive of the links made in that area.

Year 4

	Term 1		Term 2	Term 3	Term 4	Term 5		Term 6
